Syncing Your Profile on a Fresh Windows Device

Click on the profile icon in the top right corner of the Chrome profile

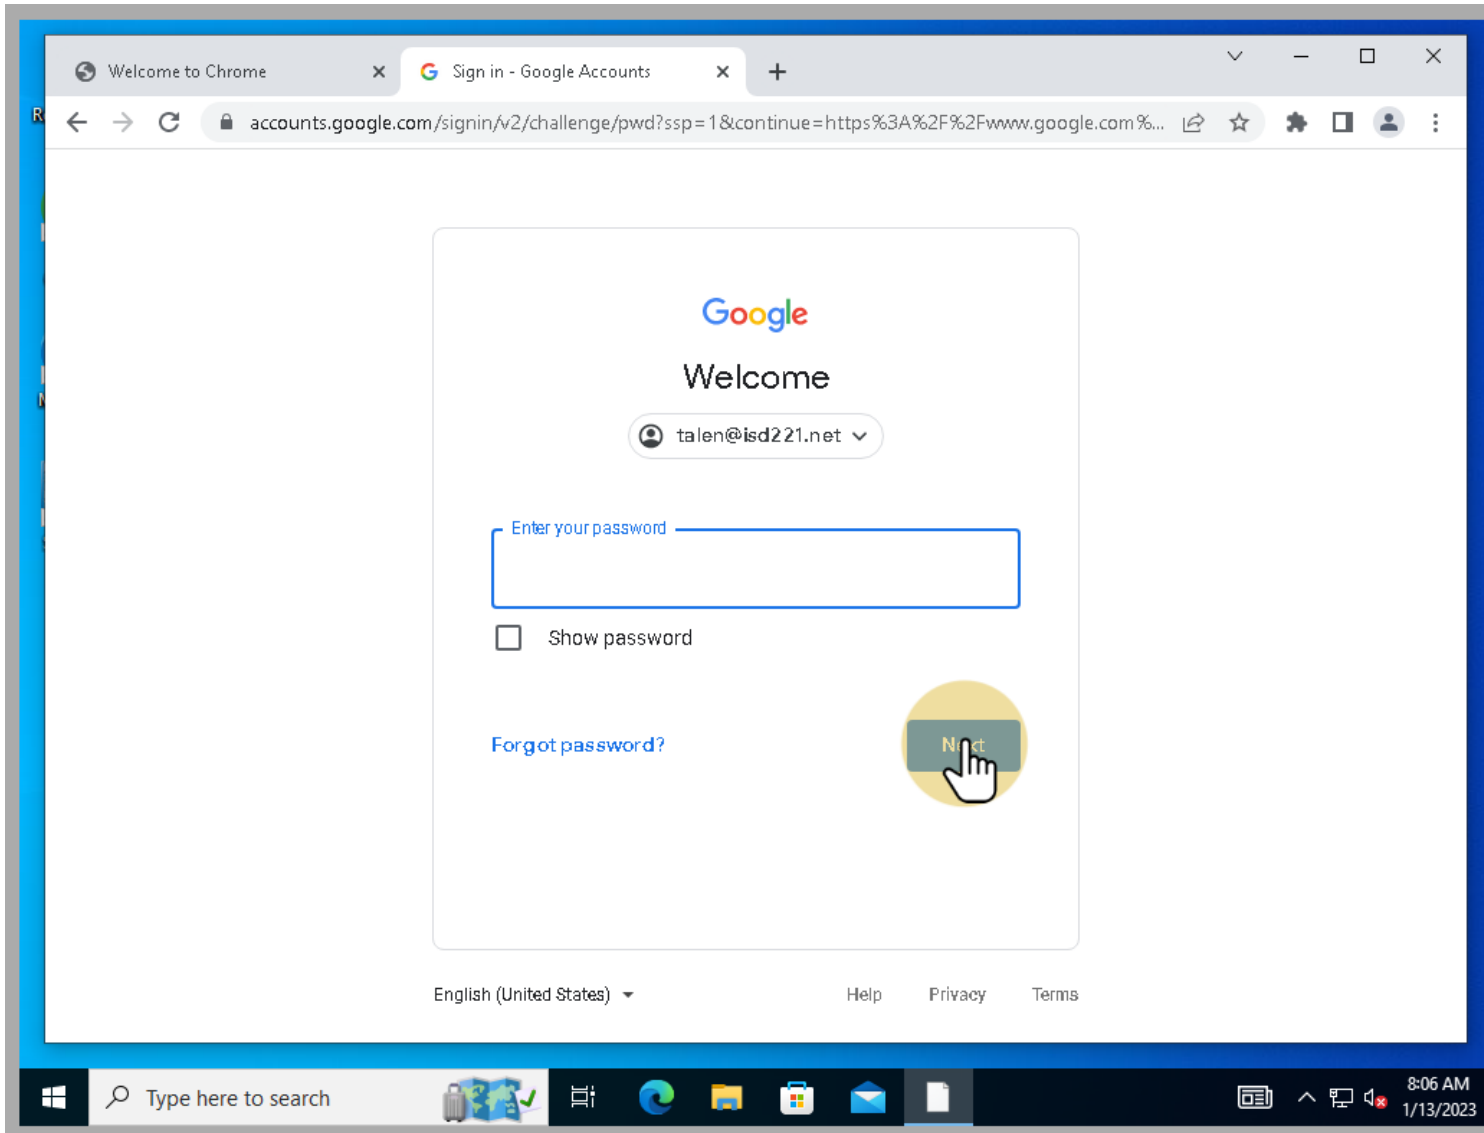

Click on "Turn on sync"

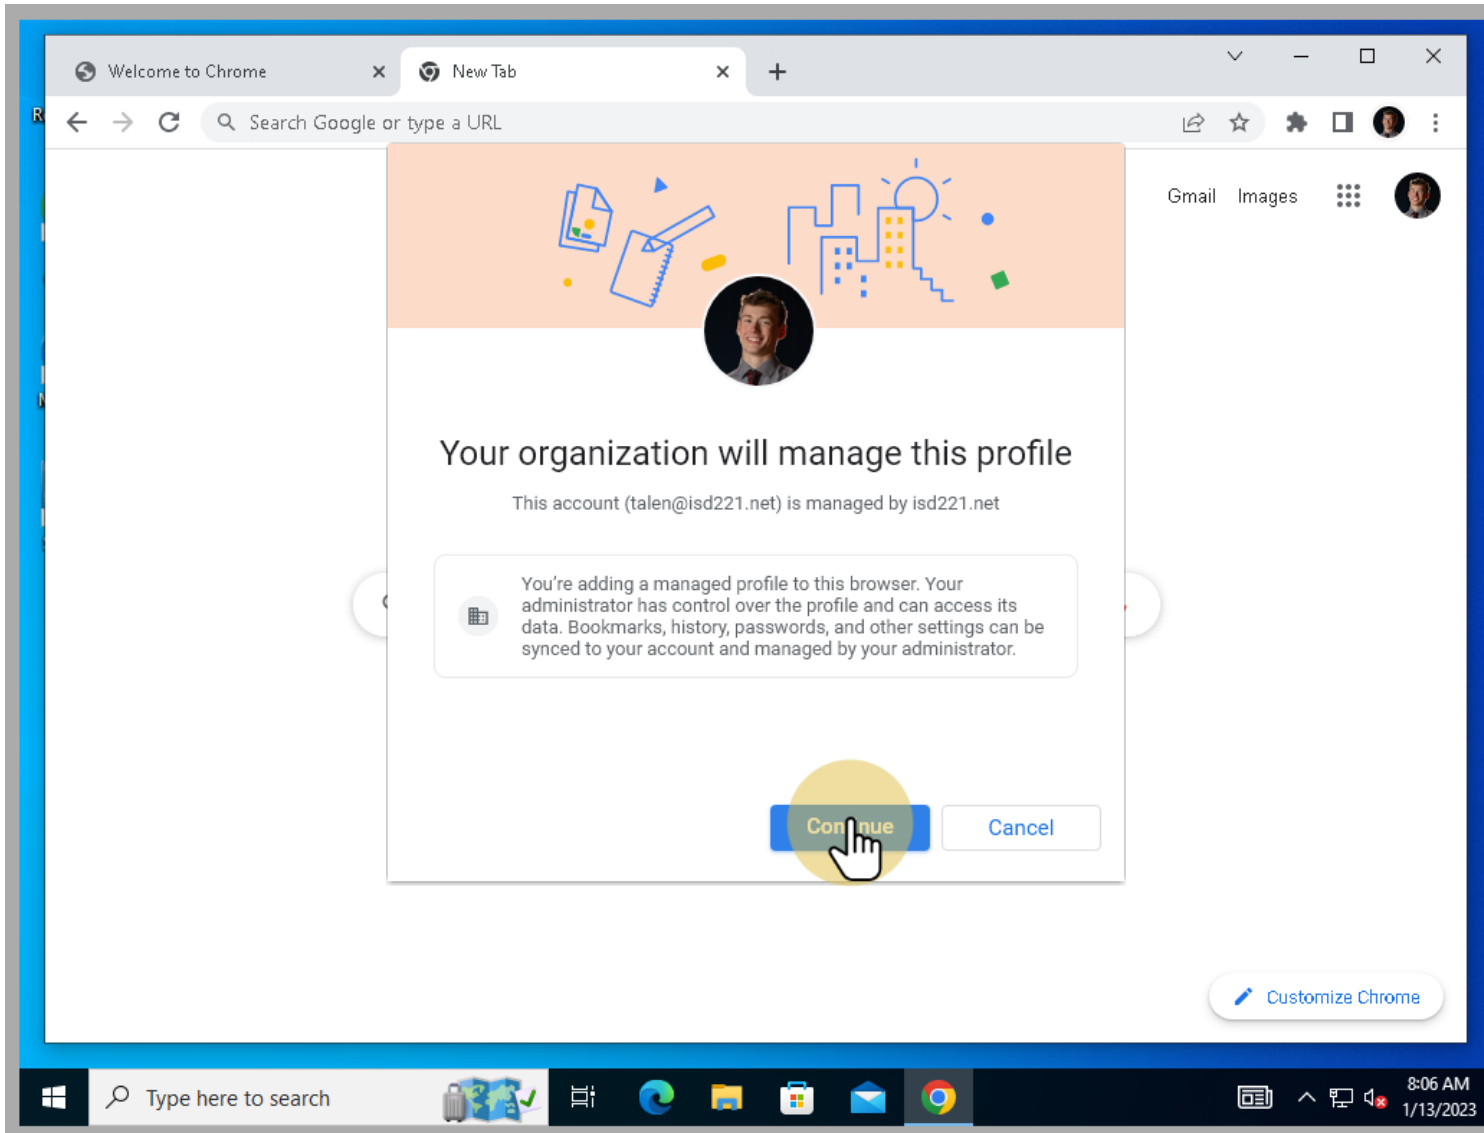

Enter your Gmail address and click next

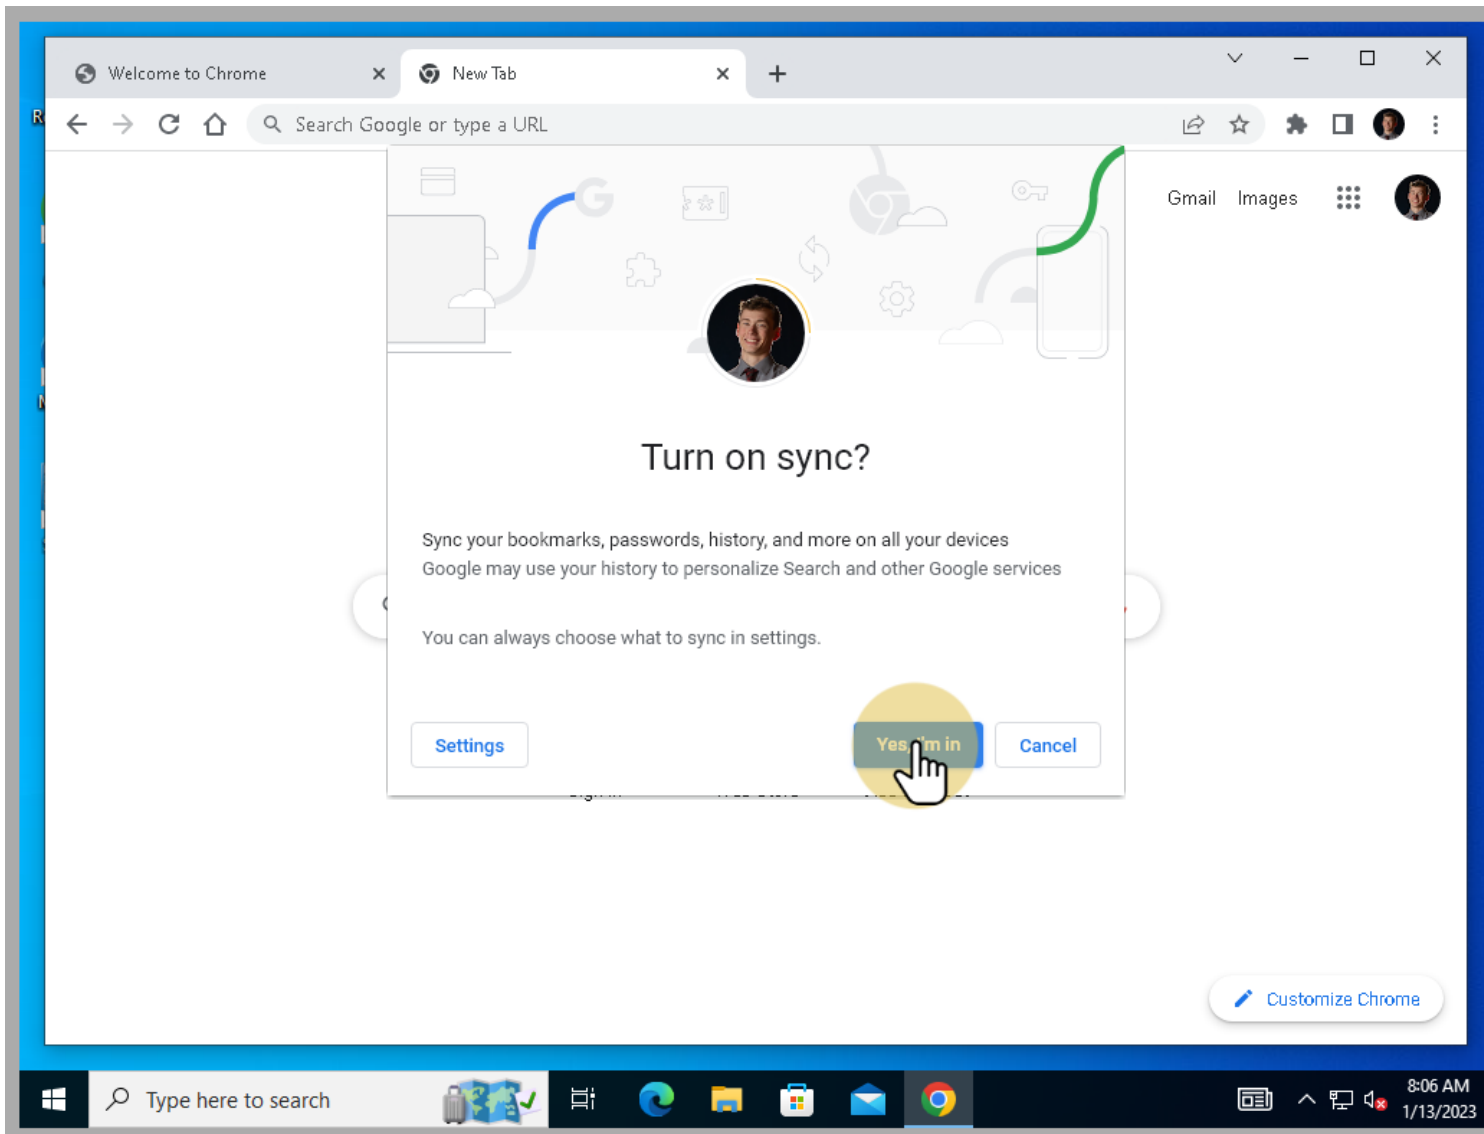

Enter your password and click "Next"

Click on "Continue" to acknowledge we manage your profile

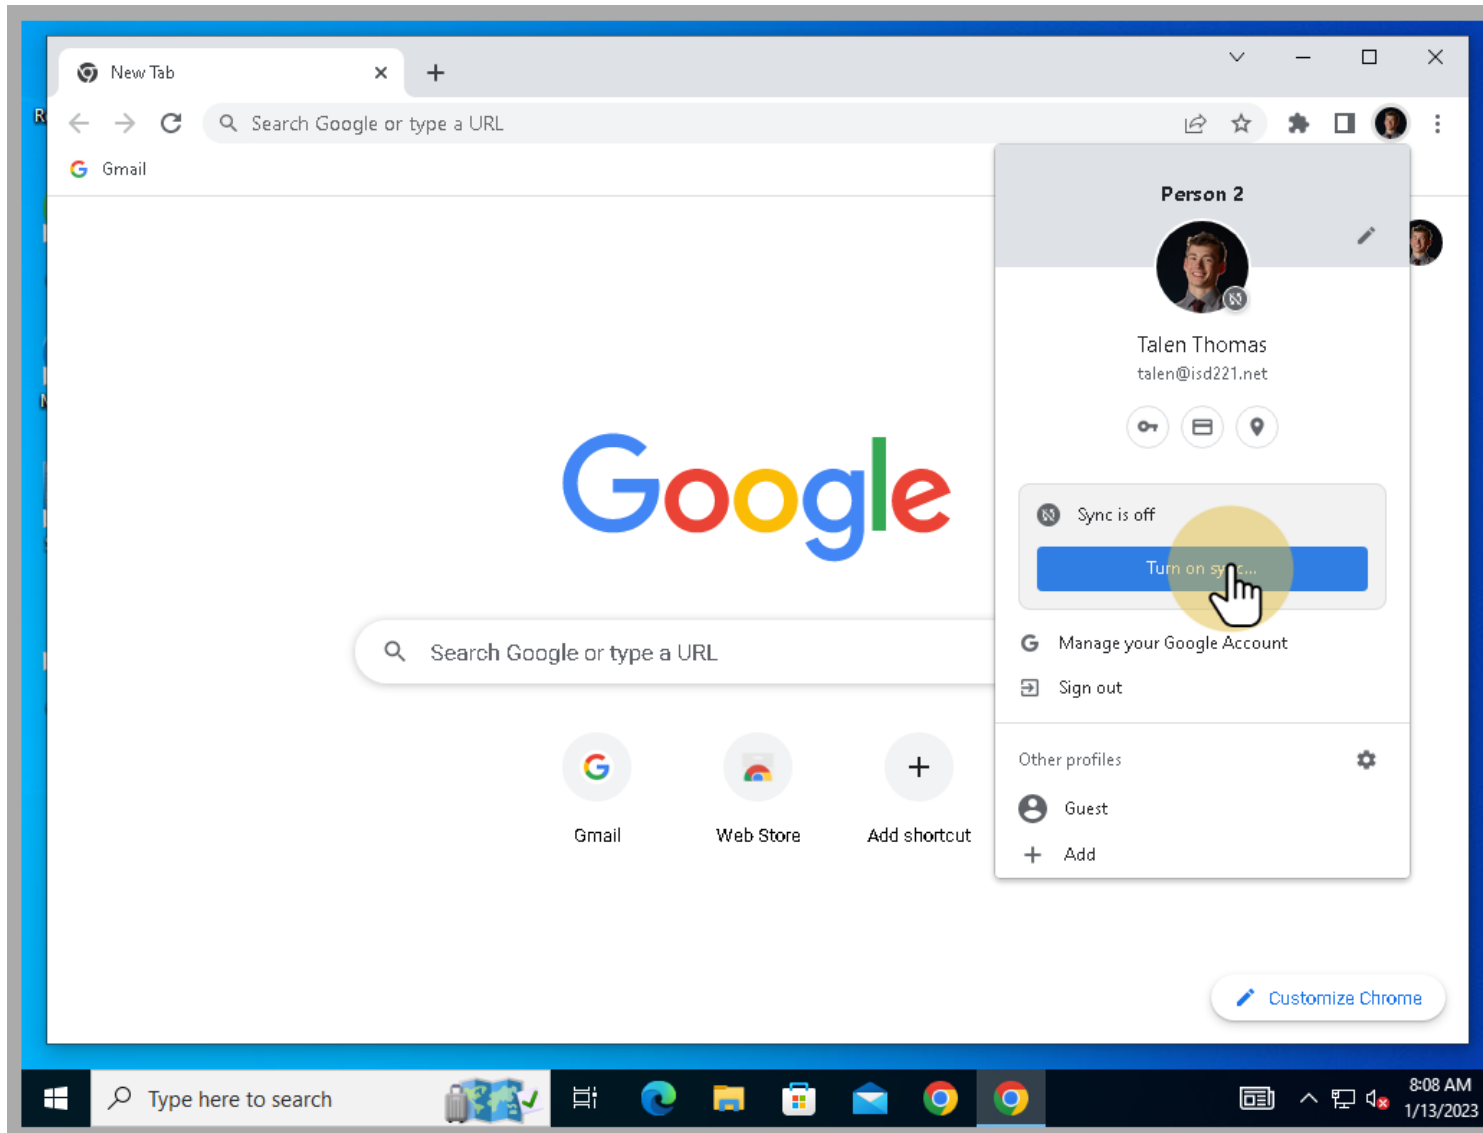

Click on "Yes, I'm in"

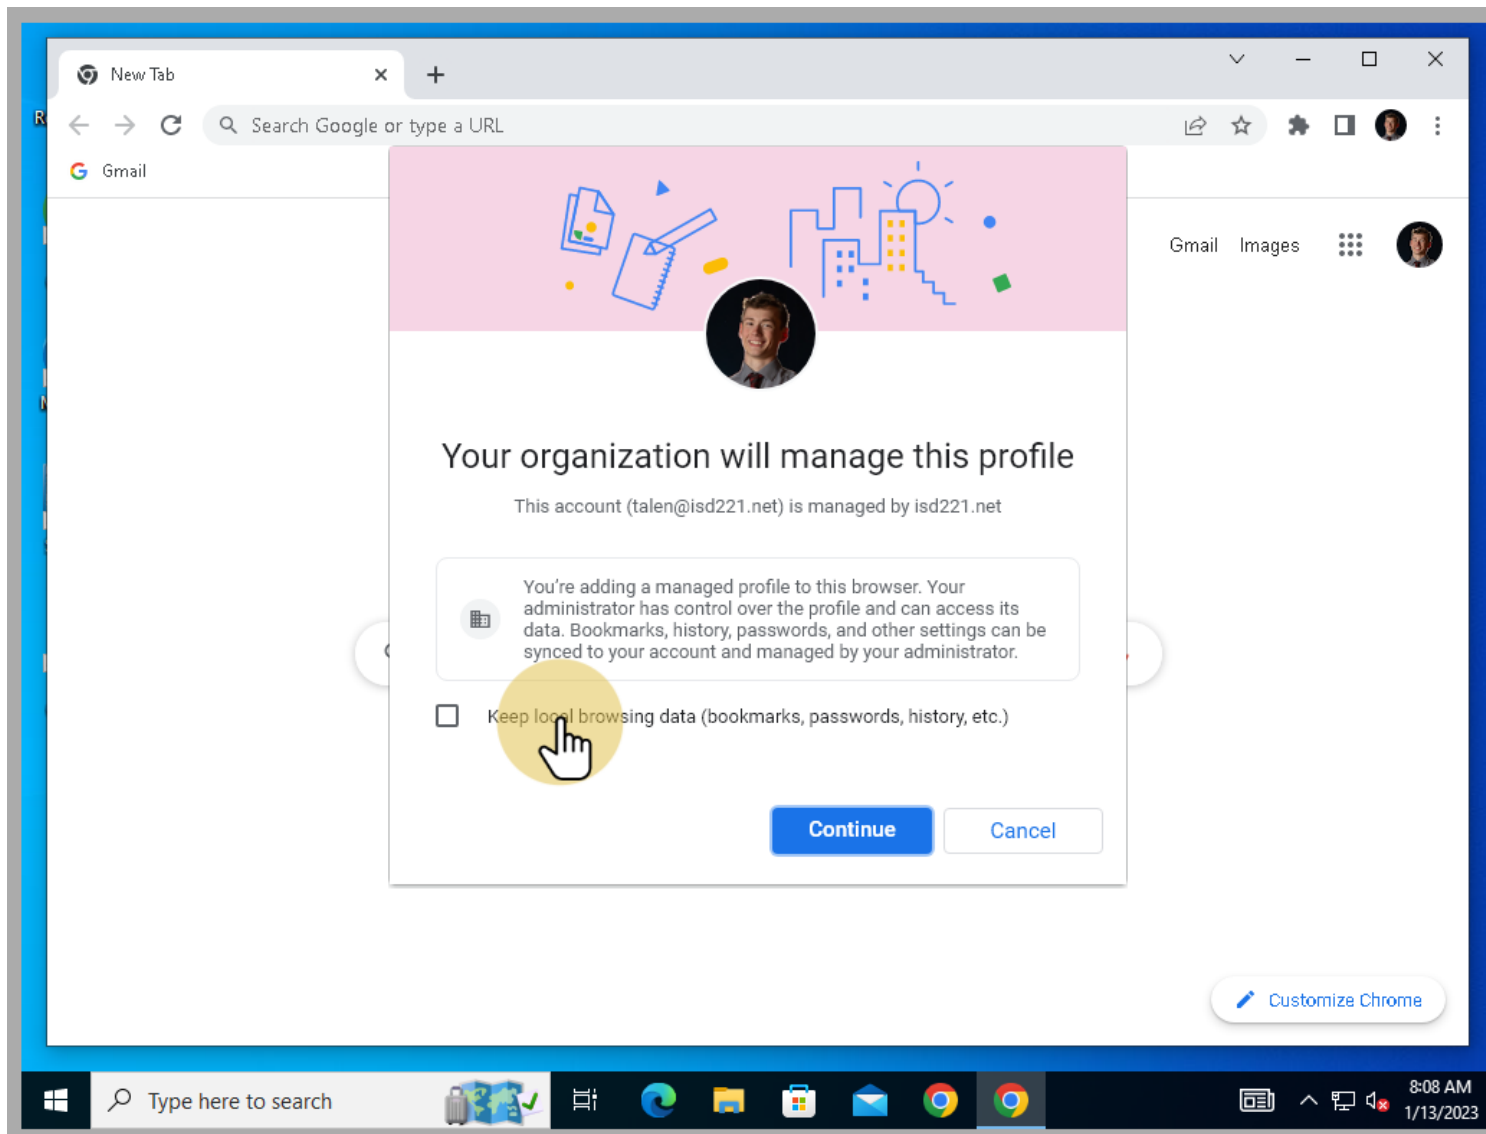

Haven't Been Syncing and Want to Start?

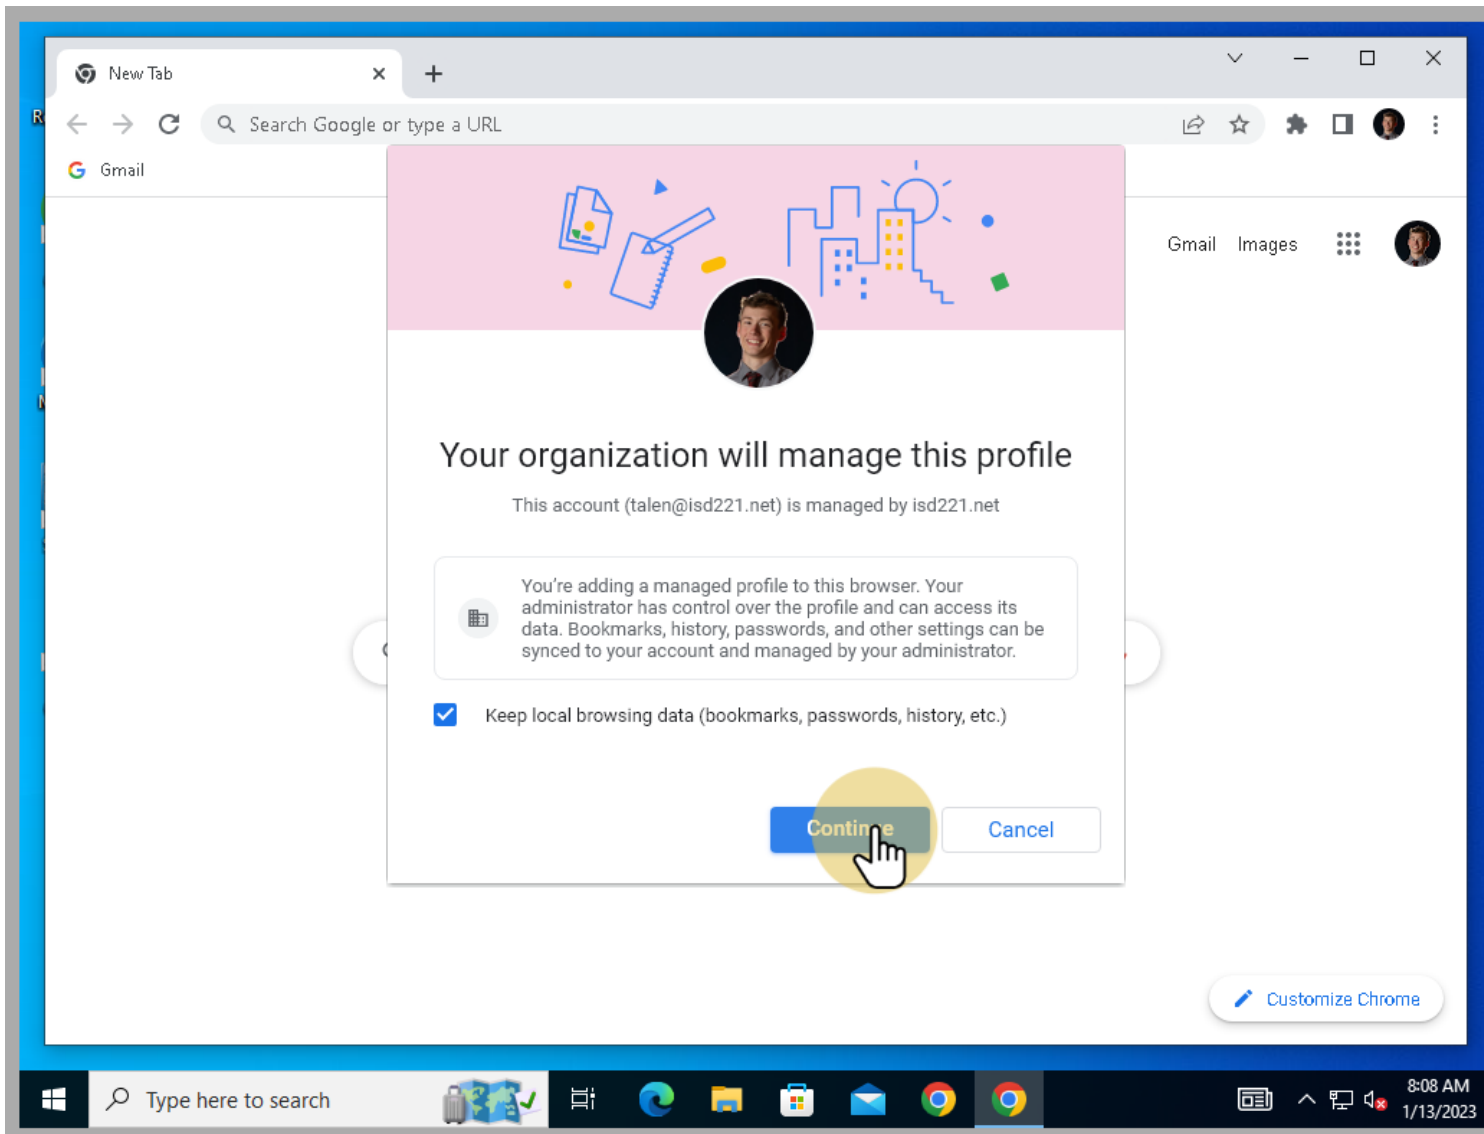

After clicking on the profile icon, click on "Turn on sync..." and make sure you are on the correct profile as you can have multiple Chrome profiles.

If you want to have your local data be synced check the box. For example, I have a local bookmark for Gmail which will be added to my synced Chrome profile if I check the box

Click "Continue"

Click "Yes, I'm in"
