

Adjust image to Single Screen DX / DL1 DVR

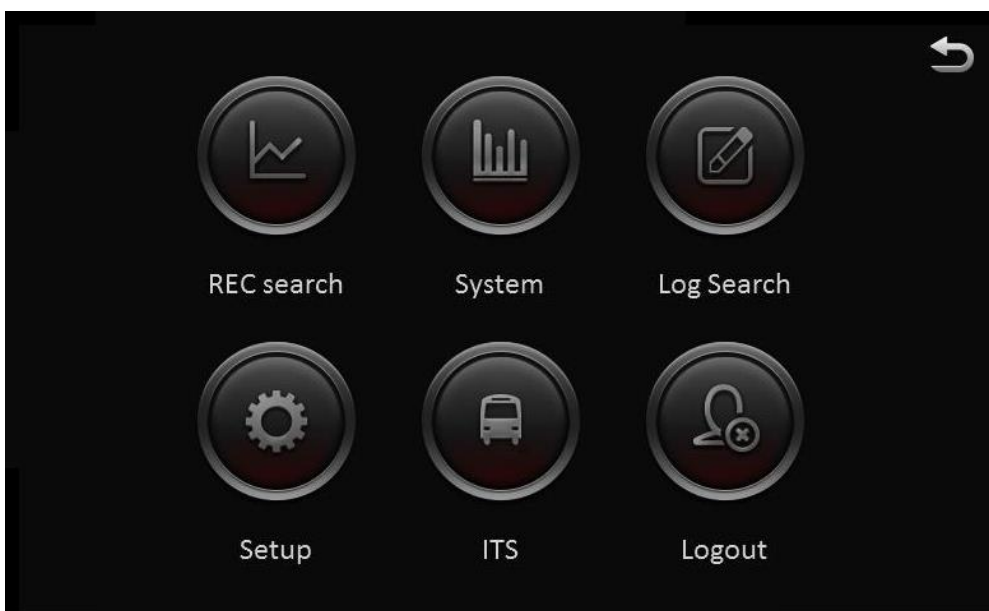

Enter DVR Menu by pressing Set up on remote

User name admin
Password eagle

To enter the main menu screen as below

Then Using the arrows select Setup menu as per image below

Then Select the Surveillance menu from top bar

Now Under Live View Tab at the side then in Preview. Now you can change the Startup screen to Single (Default setting is Quad) then tick the required channel to show in single screen mode below by ticking the correct channel number.

When you have set to the correct setting you can then press save and exit the menus.
