

Durite Live Streaming

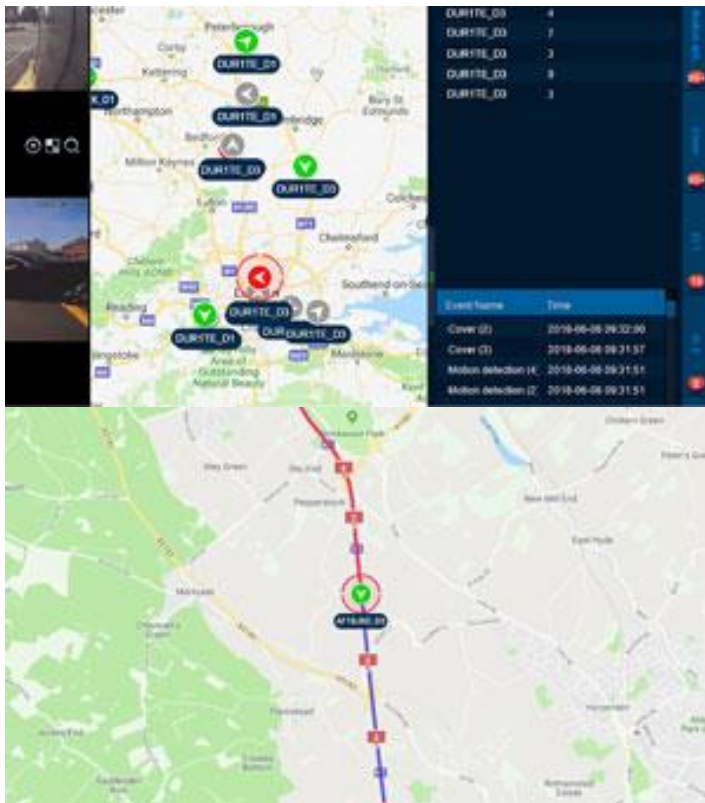

“Durite Live allows you to live stream and manage your fleet effectively anytime, anywhere on any devices.”

If you are a fleet manager or an owner of a logistic company who needs or would like to have live status update of your fleet, whether it is for better management or planning, improving driving behaviour and personnel safety or avoiding false insurance claims, our [Durite 4G Live-Streaming DVR Systems](#) are the perfect solution.

All you need is to install one of our [4G Live-Streaming DVR Systems](#) that come in either [Hard Disk Drive \(HDD\)](#) or [Secure Digital \(SD\) card storage](#), or our [4G Dashcam range](#) and subscribe to our Durite Live Portal, a platform to live stream and manage your fleet in real-time. And what’s more, a Durite Live app is available for both Android and Apple devices, which gives you the real power and flexibility to monitor and manage your fleet at your fingertips.

Durite Live allows you to manage your fleet efficiently and effortlessly:

- 4G Live-stream video footage from the cameras of multiple vehicles anywhere, anytime.
- Real-time GPS tracking - follow your fleet on a map. Know their exact location and reroute them.
- Instant video footage - download crystal clear high-definition incident video footage to expedite claims.
- Monitor the system & check cameras - get live status of the cameras
- Secure Durite Live portal to remotely access video footage from your PC or mobile device.

Durite Live has more to offer:

Integrates with Durite Telematics (*Additional device and subscription required.*)
Access multiple reports for fleet control – the ultimate fleet management solution

Real-time alerts

Get notifications in case of incidents: speeding, movement in & around the vehicle, or if a camera is covered or down.

Also, with the addition of the DMS camera you can add driver behaviour alerts for, Yawning, Fatigue, Smoking, Distraction, Using Phone. (Dependant on Hardware fitted).

Digital geo-fence

Receive instant alert when a vehicle enters/leaves the restricted area.

Keep your data safe on Durite server

With Microsoft Azure. GPS, location & fleet information gets securely saved to the Cloud & access is password protected
